

Zahra Darziyan Azizi

Date of birth: 31/08/1991 | **Place of birth:** qom, Iran | **Nationality:** Iranian | **Sex:** Female | **Phone:** (+98) 09035044816 (Mobile) |
Email: azizizahra6870@gmail.com | **Website:** <https://azizi.portfolio.rashasoftware.ir/> | **Address:** iran, 1, Iran (Home)

ABOUT MYSELF

AI-driven Product Analyst and Full-Stack Developer with over 5 years of experience turning business concepts into scalable, data-driven MVPs. Skilled in connecting business goals with technology through deep analytical thinking, agile development, and user-centered design. Experienced in AI integration, process optimization, and digital transformation. Passionate about building intelligent systems that combine human insight and machine learning to create meaningful impact.

WORK EXPERIENCE

TOSE'E GAR ACADEMY – IRAN

BUSINESS & PROGRAMMING MENTOR | 2023 – 2025 – 01/04/2023 – 01/11/2025

- Designed personalized career paths for more than **100 developers**, improving their transition from learning to employment.
- Conducted workshops on **web development**, **AI tools**, and **business innovation** trends.
- Mentored students in building **MVPs (Minimum Viable Products)** based on real business cases.
- Introduced participants to **AI-assisted development tools** (ChatGPT, GitHub Copilot, Cohere API).

PROJECT IN ITALY / REMOTE – ITALY

CONCEPT DESIGNER & FRONT-END LEAD – COMMUNITY PLATFORM | 2024 – 2025 – 2024 – 2025

- Created the front-end architecture of a community platform for **Iranians in Europe**, focusing on inclusivity and accessibility.
- Utilized **Laravel**, **Vue.js**, and **MySQL** to deliver a secure and responsive experience.
- Designed **UI/UX prototypes in Figma**, improved mobile-first responsiveness, and coordinated beta testing with cross-functional teams.
- Defined technical specifications, documented user journeys, and ensured design consistency across all modules.

REMOTE

FREELANCE FULL STACK DEVELOPER | 2020 – 2025 – 2020 – 2025

- Developed a range of web applications, including **CRM and marketing automation systems**, and **Telegram bots** using **PHP** and **Python**.
- Built customized **school management** and **beauty salon booking systems**, integrating online payment and real-time notifications.
- Increased operational efficiency for clients by up to **40%** through smart automation and intuitive dashboards.
- Delivered end-to-end projects from idea to deployment, including requirements analysis, UX design, and database management.

FREELANCE PROJECT – IRAN

IDEA DESIGNER & FULL STACK DEVELOPER | 2020 – 2021

- Designed and deployed a **school management platform** that centralized grades, schedules, and student records.
- Integrated **real-time communication APIs** for customer support and internal coordination.
- Enhanced client satisfaction through responsive dashboards and efficient data management systems.

REMOTE – CANADA

MIGRATE AI ASSISTANT | 2024 – PRESENT (ONGOING) – 2024 – CURRENT

Created an **intelligent migration assistant** for automating data transfer and validation using AI. Integrated **data cleaning**, **report generation**, and **real-time monitoring** dashboards.

Python, FastAPI, SQLite, Vue 3, ReportLab

PROJECTS

STP Analytics Tool

Laravel, Vue.js, Chart.js

Developed an interactive analytics tool for **Segmentation, Targeting, and Positioning (STP)** analysis. Implemented **AI-assisted text generation** and **PDF report export** features for marketing teams.

MomTime

Developed a **mobile app for time and task management**, focused on supporting mothers in daily scheduling, reminders, and productivity tracking. Designed as a socially impactful MVP.

Expo/React Native, TypeScript, MySQL

QR Menu Manager

Restaurant Menu Management System | Laravel, Vue.js, MySQL, QR Code Integration
Developed a full-featured restaurant system enabling **digital menus**, **QR-based ordering**, and **real-time menu management**. Designed for scalability and optimized customer interaction.

Link <https://qrmenu.rashasoftware.ir/>

AI Voice Translator

AI, Python, OpenAI, Speech Recognition
Built an **AI-powered voice translator** supporting multilingual, real-time translation with automatic speech recognition. Designed to demonstrate human-AI collaboration in natural language understanding.

Link <https://azizi1991.github.io/FA-EN/>

Reserve Script

PHP, MySQL, JavaScript
Designed an online booking system for hotels and hospitality centers, featuring reservation management, availability tracking, and custom report generation.

Link <https://reserve.rashasoftware.ir/>

School Management System – 40% Process Efficiency Gain

Laravel, MySQL, UI/UX Design
Designed and developed a **school management platform** reducing administrative workload by **40%** through smart automation of scheduling, grading, and student management.

Telegram Bots – Booking & Customer Support Automation

Python, PHP, API Integration, Telegram API
Developed intelligent **Telegram bots** for customer support and online booking. Automated responses, scheduling, and notifications to reduce human workload and enhance service quality.

CERTIFICATIONS

Harvard University (HarvardX – edX), USA | 2025
CS50x – Introduction to Computer Science

- Comprehensive introduction to computer science fundamentals, algorithms, and data structures.
- Includes practical projects in C, Python, and web development.

DataCamp | 2024
Machine Learning Certification

- Covered supervised and unsupervised learning, model evaluation, and real-world implementation with Python (scikit-learn, pandas, numpy).

DataCamp | 2024
Data Science Professional Training

- Focused on data visualization, analysis, and predictive modeling.
- Applied case studies in data-driven decision-making and business insights.

Google Cloud | 2025
Prompt Design in Vertex AI – Skill Badge

- Learned effective **prompt engineering** techniques for AI model design using Vertex AI tools.
- Hands-on experience in **LLM fine-tuning**, **prompt chaining**, and **AI system integration**.

- Understanding modern software architecture and DevOps methodologies.
- Focused on scalable system design and continuous deployment.

- Introduction to key AI concepts, including neural networks, machine learning, and ethical AI practices.
- Hands-on exercises with Microsoft’s AI platforms and APIs.

● EDUCATION AND TRAINING

Field of study Computer use

Field of study Business, administration

● SKILLS

Technical Skills

PHP | Laravel | Python | Vue.js | HTML/CSS/JS | Design Thinking & Human-Centered Design | Advanced Reporting | API Development | MySQL | Machine Learning | AI APIs | JavaScript | UI/UX (Figma) | Chart.js | Git/GitHub | MySQL/SQL | Node.js

Analytical & Product Skills

MVP Design | LLM Solutions | Networking & Communication | Requirements Analysis | Process Optimization | UX Research | Prompt Engineering | User Flow Design

Soft Skills

Analytical & Critical Thinking | Mentoring & Knowledge Sharing | Adaptability, Problem-Solving & Creativity | Cross-functional Collaboration | Leadership and Team Coordination

AI & Data Science

Machine Learning (Supervised & Unsupervised) | AI Model Integration (Cohere API, OpenAI, Vertex AI) | Prompt Engineering & LLM-based Solutions | Data Analysis & Visualization (Python, Pandas, NumPy, Matplotlib) | AI-Driven Decision Support Systems

● HOBBIES AND INTERESTS

AI-powered Product Development & Business Analysis — from idea to functional MVP

- **AI and Human Behavior Research:** Exploring how artificial intelligence can support human decision-making and creativity.
- **Innovation & Product Strategy:** Following global trends in digital transformation, product innovation, and startup ecosystems.
- **Mentoring & Teaching:** Sharing knowledge about business analysis, AI tools, and software development with learners and peers.
- **Design & Aesthetics:** Enjoy experimenting with modern UI/UX concepts and minimalist visual design.
- **Music & Reading:** Listening to instrumental music and reading books on psychology, leadership, and technology.
- **Travel & Culture:** Passionate about exploring new cultures and connecting with diverse professional communities.

● LANGUAGE SKILLS

Mother tongue(s): **PERSIAN**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	B1	B2	B2	B1	B1

Levels: A1 and A2: Basic user - B1 and B2: Independent user - C1 and C2: Proficient user
